

Certificate of Compliance and Crashworthiness

Certificate Number PLAS-017D

Plasticade VERTICADE (Extended Vertical Panel Barricade)

Plasticade Products certifies that the Plasticade VERTICADE (Extended Vertical Panel Barricade) meets or exceeds Part 6 of the Manual on Uniform Traffic Control Devices (MUTCD) 2009 Edition, Section 6F.

We also certify that the Plasticade VERTICADE (Extended Vertical Panel Barricade) meets or exceeds the National Cooperative Highway Research Program (NCHRP) Report 350, Category 2, issued by the Federal Highway Administration (FHWA) and it is deemed compliant per WZ-15 and WZ-326. This includes the use of lights.

The Plasticade VERTICADE (Extended Vertical Panel Barricade) is deemed to be "crash worthy" under the guidelines stated above.

In addition, the Verticade (Extended Vertical Panel Barricade) meets the requirements of the New Mexico Standard Specifications for Highway and Bridge Construction, 2014 Edition, Section 702.2.2.2.

This certificate shall not be reproduced except in full.

Date of Issue: 1/2/19

A handwritten signature in black ink that reads "Henry A. Ross".
