

3 Volt High Efficiency Barricade Lights With Solar Assist

- Type A, C, and 3-way
 - steady burn, flashing, or off
- 3 Volt high efficiency LED light
- Solar panels trickle charge D-cell batteries
- Internal panels provide less chance for damage or theft
- Battery life: 19-20 months on 4 alkaline D-cell batteries
- Double sided polycarbonate lenses
- Change batteries with ease
- Batteries drop into light base, then snap into case
- Impact absorbing breakaway candle
- Moisture proof circuit
- Will work under any weather conditions
- Rugged copolymer case
- Tamper proof mounting bolt
- Meets MUTCD Standards

Servicing is made easy with a snap-lock case and vertically positioned batteries.

Candles from parts 8071 and 8072 are interchangeable
